Consider an ordinance amending Chapter 42, Section 42-127, Code of Ordinance (2018 Edition), by amending the speed zone on a portion of Creek Bend Boulevard. (Second Reading)

The City of Round Rock Transportation Department has completed a speed study along Creek Bend Blvd between Wyoming Springs Blvd and the southwest approach to the bridge over Brushy Creek. The purpose of the study was to document and evaluate the existing posted speed limits within the study area.

Based on the results of the study, the 85th percentile speeds within the study area are between 44 mph and 49 mph, which is within 5 mph of the posted speed. Therefore, the recommendation of the Transportation Department is for the existing speed limit remain at 45 mph.
