Consider a resolution authorizing the City Manager to issue a Purchase Order to Znet Tech, LLC for the purchase of 3-D Crime Scene Rendering Software and related products and equipment.

Crime Scene has used a 3-D FARO scanner for several years to take exact measurements of crime scenes that make investigating major crimes more efficient and provide for courtroom exhibits. The existing device is old enough to have fallen out of annual maintenance and should be replaced so it can continue to support investigations. The proposed purchase order will replace the existing equipment but reactivate its maintenance so it may be used by the Department's Traffic Reconstruction Team. Pricing is determined through a General Services Administration (GSA) contract, with the exception of a few sole-source items not available through GSA.

Cost: $73,678.70
Source of Funds: Public Safety Equipment Replacement Program
