GENERAL TERMS AND CONDITIONS AND WARRANTY

Installation charges are for a "standard" installation unless specifically noted to be otherwise. Installation charges are due upon completion. Standard installations are based upon a soil work site, that is freely accessible by truck, (no fencing, tree/landscaping or utility obstacles, etc.), and level, (+/- 1-2% maximum slope). An accessible water source must be available to the installer. Any site work that is not expressly described is excluded. Standard installation does not include any extra or additional machinery, drillers, etc., for rock excavation. If rock conditions are encountered, additional charges will apply.

Standard installations generally require from 2-10 business days to complete, depending upon the amount and type of equipment, site conditions, weather, and the installer's schedule. Work may or may not be performed in consecutive days. Engineered wood fiber and shredded rubber surfacing are spread, not compacted, rolled, or watered. The Customer is responsible for locating and clearly marking all underground utilities in the installation area before any installation work can begin. The installer is not responsible for damages, repairs, or discontinuance of business due to damaged utilities.

If applicable, sprinkler system locates, re-working and repairs are excluded from installation charges. Installation of all products, (equipment, borders, fall surfacing and amenities) are as quoted and approved by acceptance of quotes and drawings. As a precautionary measure, work in progress areas will be taped off at the end of the workday. Pier spoils from installation shall be spread at site. The installer is not responsible for any damages or re-works resulting from afterhour's events or activities during the work in progress period. Temporary fencing is only provided by specific request, and additional charges will apply. Collectively and/or individually, the installation company shall not be held liable for any damages resulting from misuse, vandalism, or neglect. Any deviations from approved and accepted placement of all items, along with additional work, over and above quoted items, will be chargeable to the customer. Once work is completed the customer will be notified if present at the job site, and all responsibility of any new work will be transferred to the customer. The customer is responsible for maintaining the integrity of completed installation work until all components have seated and/or cured (concrete footings, etc.).

Your project site must be completely prepared and ready to receive your equipment before any installation work begins. Acquisition of any and all permits is the sole responsibility of the customer. Additional charges may be billed for any extra hours or trips needed as a result of the work site not being ready. Neither the installation contractor will be responsible for delays caused by shortages, incorrect parts, weather conditions, other contractors, or lack of site readiness.
