Re: Recommendation of Award for Construction of the Forest Creek Lift Station Rehabilitation Project

Dear Mr. Zapata:

On December 21, 2016, the City of Round Rock received eight (8) bids for construction of the above referenced project. The apparent low bidder was Central Road and Utility, Ltd. (CRU) with a total bid price (including amounts for the polymer concrete wet well alternate bid item), of \$558,319.60. The Certified Bid Tabulation is attached to this letter.

CRU appears to be fully responsive to the bid documents and capable of performing the specified work in a satisfactory manner. LAN recommends that the City of Round Rock award the Forest Creek Lift Station Rehabilitation project to CRU for the entire contract scope and total bid amount stated above.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Daniel Dow', is written over the printed name.

Daniel Dow, P.E.
