Re: The City of Round Rock Raw Water Chemical Feed System Project – Contractor Award Recommendation

Dear Mr. Perkins:

On July 9, 2020, the City of Round Rock opened bids for the above referenced project. Four competitive bids were submitted. All of the bid packages contained all the required information. Based on the bid tabulation. Associated Construction Partners, Ltd. (ACP) of Boerne, Texas is the low bidder.

Walker Partners team members have experience working with ACP on a couple of projects, including a project at the Guadalupe-Blanco River Authority's Western Canyon Raw Water Intake Pump Station and a project for the Schertz Seguin Local Government Corporation (SSLGC). Based upon this working experience with ACP and the completeness of their bid package, Walker Partners recommends the City of Round Rock award this project to Associated Construction Partners, Ltd.

Walker Partners will prepare conformed drawings and specifications as needed for the contract and contractor.

Sincerely,

Joseph W. Jenkins, P.E.
Project Manager
