

City of Round Rock

Capital Improvements Advisory Committee (CIAC) Meeting Agenda - Final

Chairman David Pavliska
Vice Chair Rob Wendt

Alternate Vice Chair Jennifer Henderson
Committee Member Stacie Bryan
Committee Member Casey Clawson
Committee Member Michelle Ly
Committee Member Greg Rabaey
Committee Member Selicia Sanchez
Committee Member Jennifer Sellers
Ad Hoc Member David Sour
Ad Hoc Member Jesse Navarrete

Wednesday, November 7, 2018

6:00 PM

City Council Chambers, 221 East Main St.

- A. CALL MEETING TO ORDER
- B. ROLL CALL
- C. APPROVAL OF MINUTES:
- C.1 <u>2018-6088</u> Consider approval of the June 6, 2018 meeting minutes.
- D. PRESENTATIONS:
- D.1 <u>2018-6089</u> Consider and recommend approval of the Semi-Annual Report to City

Council with respect to the progress of the Capital Improvements Plan and identification of any perceived inequities in implementing the plan

or imposing the impact fee.

E. ADJOURNMENT

In addition to any executive session already listed above, the Capital Improvements Advisory Committee (CIAC) for the City of Round Rock reserves the right to adjourn into executive session at any time during the course of this meeting to discuss any of the matters listed below as authorized by Texas Government Code:

§551.071Consultation with Attorney

§551.072 Deliberations regarding Real Property

§551.073 Deliberations regarding Gifts and Donations

§551.074 Personnel Matters

§551.076 Deliberations regarding Security Devices

§551.087 Deliberations regarding Economic Development Negotiations

POSTING CERTIFICATION

I certify that this notice of the Capital Improvements Advisory Committee was posted on the 1st day of Noovember 2018 at 5:00 p.m. as required by law in accordance with Section 551.043 of the Texas Government Code.

/ORIGINAL SIGNED/ Sara L. White, TRMC, City Clerk

City of Round Rock, Texas Capital Improvements Advisory Committee June 6, 2018, Meeting

Draft Meeting Minutes

A. CALL TO ORDER

The June 6, 2018, meeting of the Capital Improvements Advisory Committee (CIAC) was held in Round Rock City Council Chambers located at 221 East Main Street. With a quorum present, Committee Chairman David Pavliska called the meeting to order at 6:00 p.m.

B. ROLL CALL

Members in attendance included Chairman David Pavliska, Vice Chair Rob Wendt, Committee Members Stacie Bryan, Jennifer Henderson, Jennifer Sellers, Greg Rabaey, and Ad Hoc Committee Members Edward Henna and David Sour. Committee Members Casey Clawson and Selicia Sanchez were absent.

City staff included Michael Thane, Director of Utilities and Environmental Services; Brad Wiseman, and Veronica Chandler with Planning and Development Services (PDS).

C. MEETING MINUTES

C.1 Consider approval of the November 1, 2017, meeting minutes.

With there being no questions or comments, a motion was offered.

MOTION: Motion by Committee Member Bryan, second by Committee Member Henderson to approve the November 1, 2017, meeting minutes as presented.

VOTE: Aye: Chairman Pavliska, Vice Chair Wendt, Committee Member Bryan, Committee Member Henderson, Committee Member Rabaey, Committee Member Sellers, and Ad Hoc Committee Members Hanna and Sour. Vote to approve: 8-0. The motion carried unanimously.

D. SEMI-ANNUAL REPORT

D.1 Consider and recommend approval of the Semi-Annual Report to City Council with respect to the progress of the Capital Improvements Plan and identification of any perceived inequities on Impact Fees.

Mr. Thane reviewed Texas Local Government Code (TLGC) Section 395 pertaining to the CIAC noting the Committee is responsible for filing a semi-annual report with respect to the progress of the capital improvements plan and report to City Council whether to continue with the existing rates or review them if necessary. Local Government Code requires a report be presented to the Capital Improvements Advisory Committee semi-annually. The current report reflected data collected from October 1, 2017, through April 1, 2018.

Mr. Thane continued by reviewing the surface water usage, along with the number of active water services, which indicated water production has remained steady. He also stated water conservation programs, water reuse programs, and community awareness have significantly improved water usage during the last few years. Other topics discussed included potable vs. reuse water; annual multi-family building permits issued; annual commercial building permits issued; annual single-family building permits issued for residential & MUD development; impact fees collected; and population projections for Round Rock and the ETJ from 2010 through 2030.

Mr. Thane followed by briefly discussing the water, wastewater, and reuse service areas. He also discussed the water and wastewater system Capital Improvement Projects that were in progress, scheduled for construction, or had been completed, noting that one of the upcoming projects listed

Capital Improvements Advisory Committee June 6, 2018, Meeting Minutes Page 2 of 2

in the report will address a needed expansion to the wastewater treatment plant. He concluded his presentation by comparing Round Rock and surrounding communities' single-family utility rates and their associated impact fees.

In closing, Mr. Thane stated population growth in Round Rock is proceeding at a slightly slower rate than what was anticipated in the impact fee report, however, this has not caused a significant concern since the number of connections to the water and wastewater systems are occurring at the projected rate anticipated by the City. He noted that the City recommended the impact fees to be reviewed every three to four years. He noted that the Water and Wastewater Master Plan is anticipated to be updated in 2018 or 2019. After the Master Plan update the adopted impact fees will be reviewed.

MOTION: The Committee recommended to approve the Semi-Annual Report and forward the report to the City Council, with updated city comparison data.

VOTE: Aye: Chairman Pavliska, Vice Chair Wendt, Committee Member Bryan, Committee Member Henderson, Committee Member Rabaey, Committee Member Sellers, and Ad Hoc Committee Members Hanna and Sour. Vote to approve: 8-0. The motion carried unanimously.

E. ADJOURNMENT

There being no further discussion, the meeting was adjourned at 6:49 p.m.

Respectfully submitted,

Veronica Chandler

City of Round Rock Utilities & Environmental Services Department

Capital Improvements Plan
Progress
Semi-Annual Report
November 2018

SUMMARY

The Local Government Code Section 395.058 requires the Capital Improvement Advisory Committee (CIAC) to report to the political subdivision the progress of the capital improvements plan and any perceived inequities in implementing the plan or imposing the impact fee. Included herein is the semi-annual report for the reporting period of April 1, 2018 to September 30, 2018. This report includes an updated assessment of the actual growth rate in comparison to the projections and assumptions made in the report; projects completed or initiated during the period; and impact fees collected during the period. These comparisons are used as indicators of the need to update the land use assumptions, capital improvements plan or impact fees.

The local government code also requires the Capital Improvement Advisory Committee to advise the City Council of the need to update the land use assumptions, capital improvements plan and impact fees. These items were last updated by the City in November 2015.

Figure 1 represents Ground and Surface water use, along with the number of active water services over the past two years. Although the City continues to grow, the total water production has remained fairly level over the past two years. Part of this reason could be because water usage is dependent on weather patterns; however, the City's conservation and reuse water programs are also affecting the amount of potable water usage by the City. The City has issued approximately 400 more permits in FY-18 versus FY-17.

Figure 1

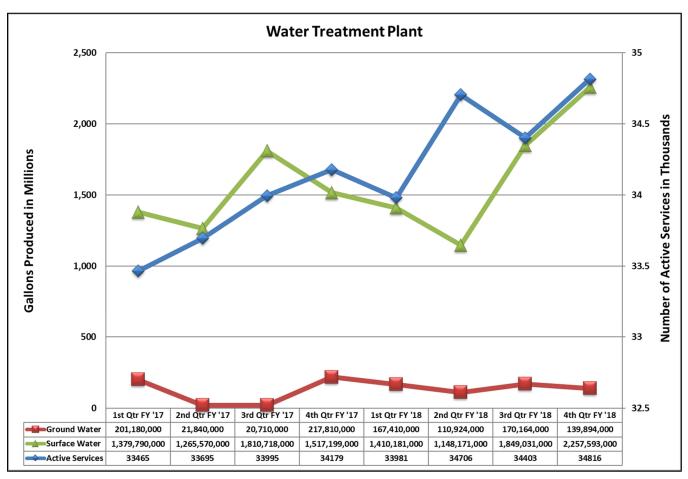

Figure 2 reflects the monthly potable water production over the past eight years. As can be expected, the average daily demand increases during the summer months; however, total water production is dependent on weather conditions, which affects discretionary water usage.

Figure 2

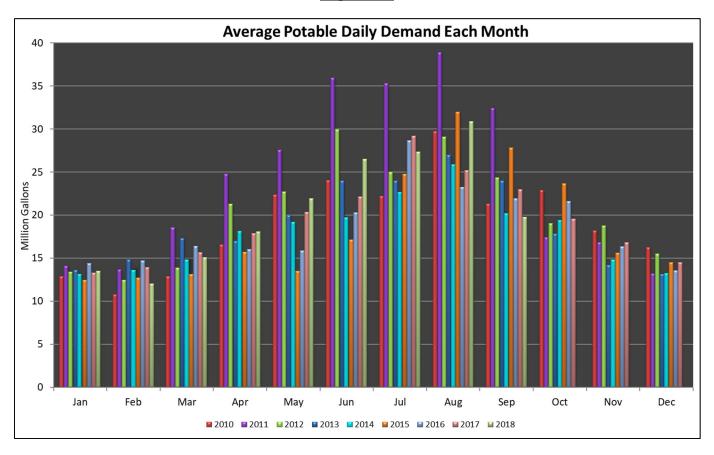

Figure 3 reflects the monthly potable treated water production and the Type I Reuse treated water production. The City's reuse water system began production in October 2012 with three customers: Old Settlers Park, Dell Diamond, and Forest Creek Golf Course. Since that time, the City has expanded the system to include Forest Creek HOA, Legends Village Subdivision, Austin Community College, Texas A&M Health Science Center, the Forest Grove and Vizcaya Subdivisions. The City continues to promote the reuse water system in the Northeast part of Round Rock and as depicted in Figure 3, the demand continues to grow.

Figure 3

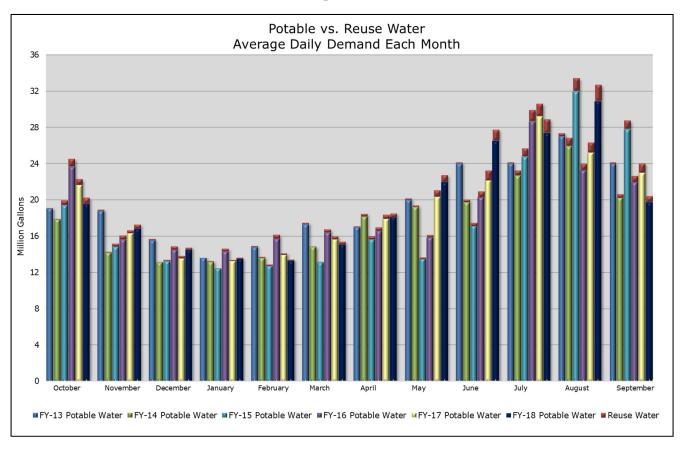

Figure 4 shows the number of single-family building permits issued annually. The number of new housing starts per year in the City of Round Rock has ranged from 222 to 911 over the past ten years. Single-family permits have increased by 240 permits over the past year due to new subdivisions available within the City. Most of the activity is in the Vizcaya, Mayfield Ranch, Glen Ellyn, Concord, Pioneer Point, Diamond Oaks, Chandler Creek, Freeman, Centerra and Madsen Ranch subdivisions. Several Municipal Utility Districts (MUDs) located in Round Rock's extra-territorial jurisdiction (ETJ) continue to experience a steady number of single-family housing starts during this time as well.

Figure 4

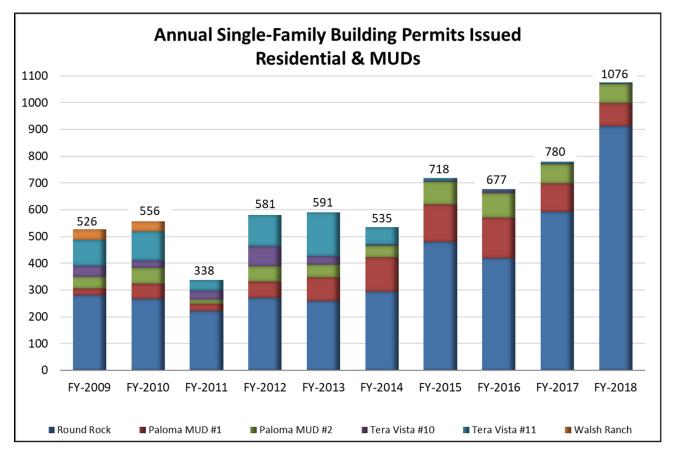

Table 1 represents the number of multi-family building permits issued annually. Currently, there are three multi-family complexes, Ace Apartments, Shadow Ridge, and Holly Brook Apartments, under construction. Several other multi-family projects are in review.

Table 1

| Fiscal Year | Units Permitted |
|-------------|-------------------------|
| FY 2005 | 538 |
| FY 2006 | 56 |
| FY 2007 | 2147 |
| FY 2008 | 224 |
| FY 2009 | 274 |
| FY 2010 | 130 |
| FY 2011 | 0 |
| FY 2012 | 280 |
| FY 2013 | 884 <i>(124 LUEs)</i> |
| FY 2014 | 334 <i>(63.5 LUEs)</i> |
| FY 2015 | 792 <i>(302 LUEs)</i> |
| FY 2016 | 608 <i>(157 LUEs)</i> |
| FY 2017 | 330 <i>(170 LUEs)</i> |
| FY 2018 | 652 <i>(327.5 LUEs)</i> |

Table 2 reflects the number of new commercial building permits issued annually. Over the past several years the number of permits has been steady, ranging from 20 to 60 permits annually.

Table 2

| Fiscal Year | Commercial Building Permits |
|-------------|--------------------------------|
| FY 2009 | 30 |
| FY 2010 | 29 |
| FY 2011 | 27 |
| FY 2012 | 20 <i>(100 LUEs)</i> |
| FY 2013 | 37 <i>(185 LUEs)</i> |
| FY 2014 | 33 <i>(165 LUEs)</i> |
| FY 2015 | 47 (202 LUEs) |
| FY 2016 | 63 <i>(442.5 LUEs)</i> |
| FY 2017 | 25 <i>(168 LUEs)</i> |
| FY 2018 | 43 <i>(220.5 LUEs)</i> |

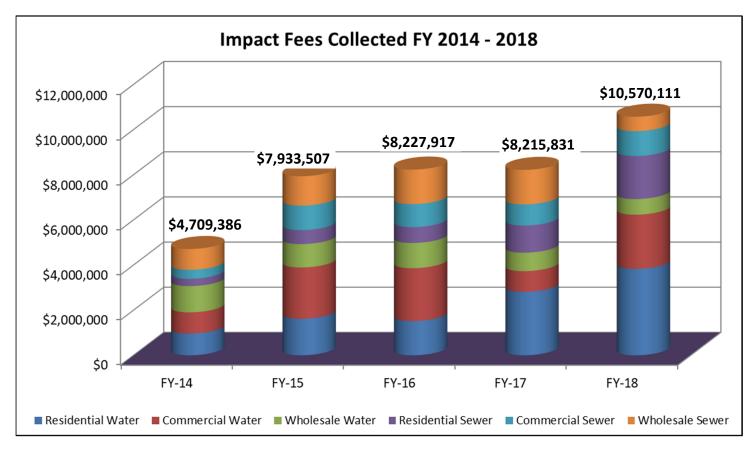

In FY-17, commercial growth continued to be strong, even though the number of permits was down. Many of the permits issued in FY-17 were larger projects such as UPS. Forty-three commercial permits were issued in FY-18. Current permits are mostly hotels, convenience stores, office buildings, retail stores, and restaurants.

Table 3 and Figure 5 summarize the impact fees collected from FY-14 through FY-18 for residential and commercial building permits. There has been a significant increase in the amount of impact fees collected during this time due to the construction in single-family residential, multi-family residential and commercial developments.

Table 3

| Impact Fees | FY-14 | FY-15 | FY-16 | FY-17 | FY-18 |
|-------------------|--------------|--------------|--------------|--------------|--------------|
| Residential Water | \$ 961,767 | \$ 1,616,580 | \$ 1,516,823 | \$ 2,812,465 | \$ 3,830,017 |
| Commercial Water | \$ 941,463 | \$ 2,273,857 | \$ 2,342,270 | \$ 915,617 | \$ 2,399,541 |
| Wholesale Water | \$ 1,163,887 | \$ 1,035,951 | \$ 1,117,590 | \$ 818,121 | \$ 692,763 |
| Residential Sewer | \$ 322,936 | \$ 618,240 | \$ 701,551 | \$ 1,201,518 | \$ 1,905,615 |
| Commercial Sewer | \$ 398,361 | \$ 1,084,193 | \$ 1,020,587 | \$ 935,750 | \$ 1,102,400 |
| Wholesale Sewer | \$ 920,972 | \$ 1,304,686 | \$ 1,529,096 | \$ 1,532,360 | \$ 639,776 |
| Total Collected | \$4,709,386 | \$7,933,507 | \$8,227,917 | \$8,215,831 | \$10,570,111 |

Figure 5

In 2015, the latest version of the water model assumed that 1,524 LUEs per year would be added to the water system. For an impact fee of \$4,025 per LUE, this would indicate that the City should have collected approximately \$6.13 million per year in water impact fees if the City would be growing as projected.

The wastewater model assumed that 1,089 LUEs would be added to the wastewater system per year. For an impact fee of \$2,099 per LUE, this would indicate that the City should have collected approximately \$2.29 million per year in wastewater impact fees if the City would be growing as projected.

Comparing these assumptions to the actual impact fees collected indicates that the FY-18 new connections to our water and wastewater systems are slightly higher than projected.

Table 4 provides population projections for Round Rock and Round Rock's ETJ. These projections, anticipating a steady growth rate, indicate that in order to keep up with growth, capital improvements to the City's water and wastewater utility systems would be necessary. However, 2012-2018 estimates, shown in parenthesis, indicate a slightly slower growth rate than projected.

Table 4

| | Inside Ci | ty | City | s ETJ |
|---------------|---------------------|-------------|-------------|-------------|
| Year | Projections | Growth Rate | Projections | Growth Rate |
| 2010 (Census) | 99,887 | - | 141,807 | - |
| 2011 | 100,659 | 0.8% | 143,960 | 1.5% |

Figure 6 provides a comparison of the Single-Family Residential Utility Rates for Round Rock customers versus surrounding Central Texas City and Municipal Utility Districts. As depicted, Round Rock utility rates remain some of the lowest in the region.

Figure 6

^{*} assumes 10,000 gallons water & 8,000 gallons wastewater used

Table 8 compares Round Rock's Water and Wastewater Impact Fees to other Central Texas cities. Historically, Round Rock had one of the highest total impact fees charged for new connections to the water and wastewater systems. However, several of the surrounding cities have increased their fees over the past few years and have surpassed Round Rock. Round Rock's philosophy is for new customers and developments to pay for the capital improvements that are required due to the growth.

Table 8

| Area Impact Fee Comparison | | | | |
|----------------------------|--------------|---------|------------|----------|
| City/Utility | Last Updated | Water | Wastewater | Total |
| Manville WSC | 2008 | \$2,800 | n/a | \$2,800 |
| Brushy Creek MUD | 2012 | \$2,095 | \$1,804 | \$3,899 |
| Cedar Park | 2013 | \$2,250 | \$2,000 | \$4,250 |
| Hutto | 2013 | \$3,625 | \$2,128 | \$5,753 |
| Jonah Water SUD | 2013 | \$5,000 | \$1,068 | \$6,068 |
| Round Rock | 2016 | \$4,025 | \$2,099 | \$6,124 |
| San Marcos | 2018 | \$3,801 | \$2,684 | \$6,485 |
| Pflugerville | 2014 | \$4,241 | \$2,725 | \$6,966 |
| Leander | 2017 | \$4,309 | \$2,820 | \$7,129 |
| Austin | 2014 | \$5,400 | \$2,200 | \$7,600 |
| Georgetown | 2017 | \$7,039 | \$2,997 | \$10,036 |

CONCLUSION AND RECOMMENDATIONS

The CIAC and City Council approved the new Impact Fees which went into effect March 1, 2016. Although the projected population growth in Round Rock is proceeding at a slightly slower rate than what was anticipated in the impact fee report, this has not caused a significant concern since the number of connections to the water and wastewater systems are occurring at the projected rate anticipated by the City.

As a result of the potential volatility in growth rates and infrastructure requirements, the City recommends the impact fees be reviewed every three to four years so that the fees are set according to the growth patterns and needs of the water and wastewater utility system improvements. It is anticipated that we will update our Water and Wastewater Master Plans in 2019. Following the Master Plan update, we will review our adopted impact fees. The next Capital Improvements Plan Progress Report will be presented to the CIAC and to the City Council in approximately six months.
