**Hollybrook Ranch
FINAL PLAT FP1604-002**

HISTORY: The Planning and Zoning Commission approved the Preliminary Plat on December 2, 2015. The concept plan was approved April 1, 2015.

DATE OF REVIEW: October 5, 2016. This item is a continuation from June 1, 2016.

LOCATION: Southeast corner of Greenlawn Boulevard and Pflugerville Parkway

STAFF REVIEW AND ANALYSIS:

General Plan and Zoning: The site is zoned MF-2, multi-family. The General Plan designation is Dell Mixed Use. The MF-2 zone allows apartments and townhouses and accessory amenity centers, as well as parks and places of worship. Several other uses are permitted with conditions. The allowed density for apartments and townhouses is 20 units per acre, with a maximum of 40 percent of the lot covered by buildings. Buildings are allowed a maximum height of 4 stories. The MF-2 ordinance also requires a minimum number of amenities for multifamily developments, depending upon how many dwelling units are in the complex. The MF-2 zone also specifies minimum parking ratios and contains standards for building design and materials.

Compliance with the Preliminary Plat: The proposed final plat is consistent with the preliminary plat approved December 2, 2015, and Concept Plan approved April 1, 2015.

Traffic, Access and Roads: The site is accessible from both Pflugerville Parkway and Greenlawn Boulevard. The Transportation Department has agreed that the existing Greenlawn Traffic Impact Analysis can stand for the proposed project, with the final extent of traffic improvements needed for the proposed apartment complex to be determined during the site plan review process.

Water and Wastewater Service: For water service, a city water line is in place across Greenlawn Boulevard. While the plat site is in the Manville CCN area, the applicant has produced a letter releasing the plat area from the Manville CCN, allowing the city to provide water service. For wastewater service, the plat is in the CCN for Windermere. The applicant will remain with Windermere for wastewater service.

Drainage: Two of the three lots in the plat are designated as special purpose lots for drainage. Drainage from the developed area would be detained in an on-site detention pond before being released to enter a tributary of Gilliland Creek. Public drainage systems are in place for both Pflugerville Parkway and Greenlawn Boulevard.

Additional Considerations: This item had previously been heard and postponed at the May 16 and June 1, 2016 meetings. The reason for postponement was lack of agreement between the city and the applicant regarding a staff-recommended condition of a wastewater easement through the plat. Since then, staff has since dropped this condition, for the reason that the city will not be serving the site, as the site is not in the city's wastewater CCN. Staff has also determined there are other ways to serve the neighboring property to the north without requiring the easement as originally requested.

The proposed use of the site is multifamily, consisting of 14 apartment buildings and a clubhouse. The area to the east and south of the site is City of Pflugerville and ETJ.

RECOMMENDED MOTION:

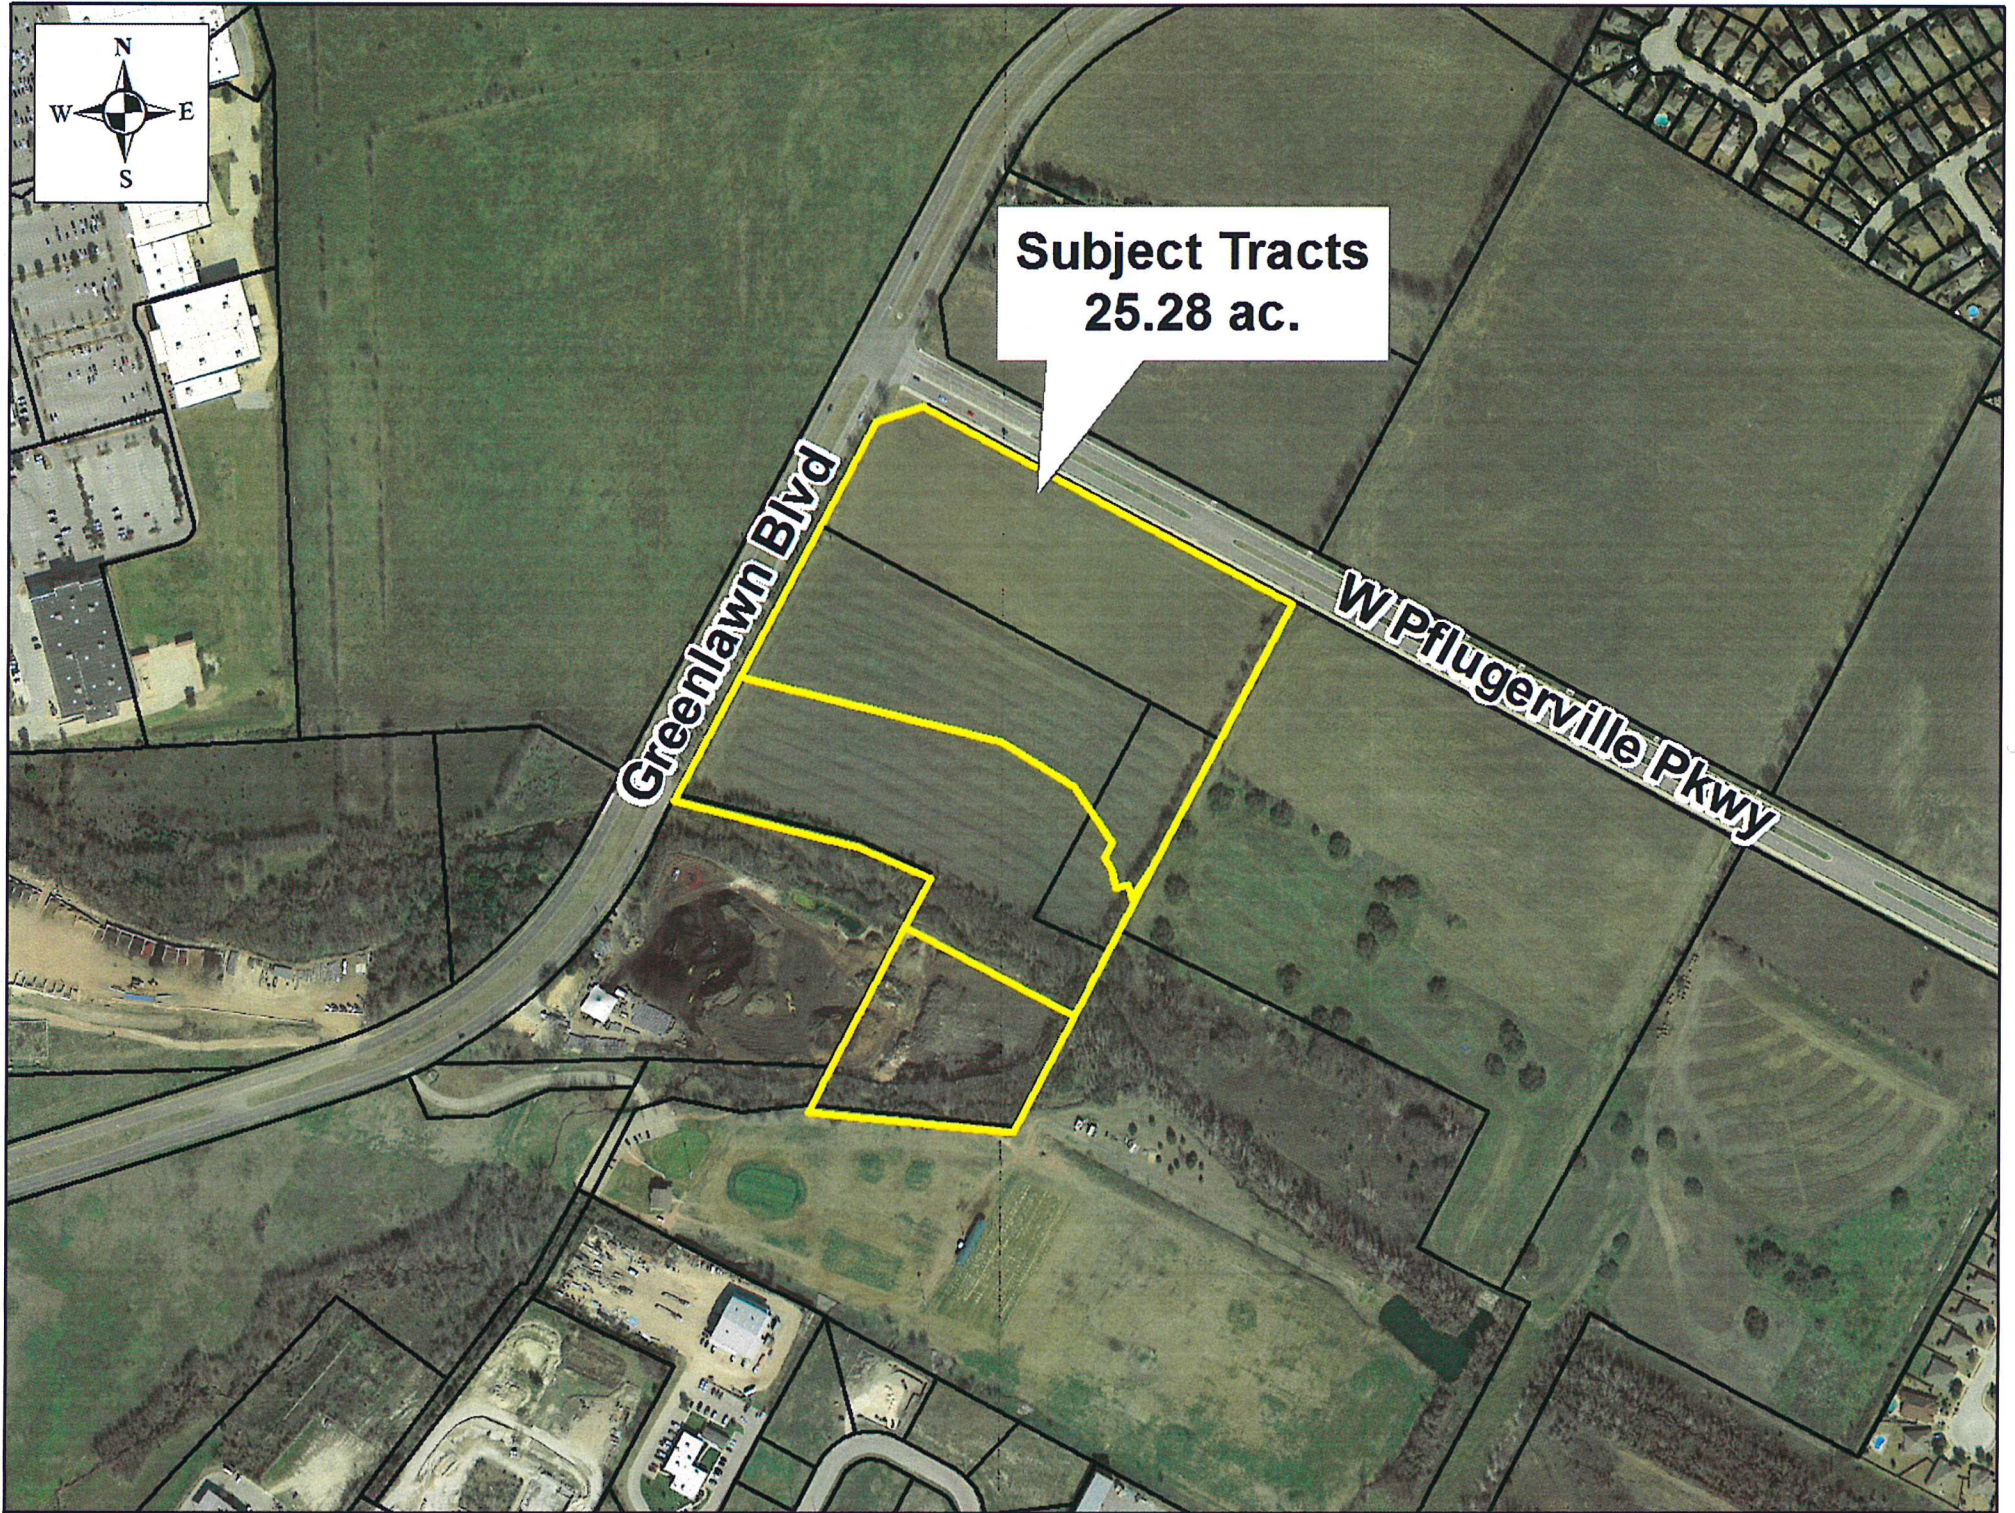

Staff recommends approval.
