Vizcaya, Phase 3E
FINAL PLAT FP1701-002

HISTORY: City Council approved PUD 96 on June 26, 2014. The Planning and Zoning Commission approved the Avery North Preliminary Plat November 20, 2013, revised as Vizcaya Preliminary Plat November 5, 2014, November 4, 2015, June 1, 2016 and December 21, 2016. The Planning and Zoning Commission approved a previous version of Vizcaya Phase 3E Final Plat on March 2, 2016.

DATE OF REVIEW: February 1, 2017

LOCATION: Current western terminus of Caruso Lane. Caruso Lane connects to University Boulevard via Vizcaya Parkway.

STAFF REVIEW AND ANALYSIS:

General Plan and Zoning: The general plan designation for the plat area is residential. The zoning designation for the site is PUD 96, Vizcaya. The Vizcaya PUD includes standards for residential areas, including lot sizes, exterior finishes, garage door design, and fencing standards. Phase 3E contains a mix of standard and large lots, with 6 single-family large lots and 45 single-family standard lots. The Vizcaya PUD ordinance states that minimum lot size for the large lots is 7,500 square feet with a 60-foot lot width, while the minimum lot size for standard lots is 6,100 square feet with a 50-foot lot width. The plat includes a table showing the running total of each type of lot relative to the approved totals for the entire development as shown in the approved preliminary plat.

Compliance with the Concept Plan/Preliminary Plat: The subject plat conforms to the amended preliminary plat as approved by the Planning and Zoning commission on December 21, 2016.

Traffic, Access and Roads: Phase 3E has access to the Caruso Lane connector, which connects to University Boulevard and Vizcaya Parkway. A Traffic Impact Analysis done for the Avery North development before the development's name changed to Vizcaya covers the plat site. A second access easement has been provided to connect Veranda Terrace to the driveway connecting the isolated residential lots south of phase 3E to County Road 186.

Water and Wastewater Service: The city has constructed a 36-inch water line to the Vizcaya property. The site will be served by 16 and 12-inch water lines that connect to the 36-inch water line at University Boulevard. The city also constructed a 36-inch interceptor sewer line, to which the local system within Vizcaya connects.

Drainage: The drainage for Section 3E will tie into the master storm sewer system for the Vizcaya subdivision. The Floodplain Analysis and Drainage Plan for this section is covered in a report for the entire subdivision completed in 2014.

Additional Considerations: This section replaces the Section 3E Final Plat, which the Planning and Zoning Commission approved on March 2, 2016. As the previous Section 3E plat has not been recorded, no action to vacate that plat is required. The boundaries of the subject plat differ from the previous plat, reflecting changes in the boundaries of several sections that occurred with the approval of the most recent Preliminary Plat in December 2016.

Vizcaya, Phase 3E
FINAL PLAT FP1701-002

RECOMMENDED MOTION:

Staff recommends approval with the following conditions:

1. Add Block K to the lot tables (for the landscape lot, 64).
2. This plat must be recorded in tandem with the Amended Plat of Vizcaya Western Amenity Center Phase 1 & 2.
3. All offsite Drainage and Storm sewer easements must be recorded prior to release of the subdivision improvements permit or recordation, whichever happens first.
4. Any portion of the 30' access easement traversing Portici Pass must be released prior to plat recordation.
5. Change the suffix on the east part of Enza to "Court."
