**Vizcaya Phase 5A
FINAL PLAT FP1712-003**

HISTORY: The Planning and Zoning Commission first approved the Vizcaya preliminary plat on November 20, 2013, under its original name of Avery North. There have been several revisions since, some of which required review by the Commission and some were administrative. The most recent revision was approved by the Planning and Zoning Commission on August 2, 2017.

DATE OF REVIEW: January 10, 2018

LOCATION: East of A.W. Grimes Boulevard and north of University Boulevard

STAFF REVIEW AND ANALYSIS:

General Plan and Zoning: The Vizcaya development consists of approximately 501 acres of land, which is divided into two use districts consisting of approximately 24.9 acres for commercial development and 476.24 acres for residential development. The residential acreage is further subdivided to include an approximate 100 acres of parkland and open space, some of which encompasses the existing flood plain, and a three-acre fire station site that will ultimately be dedicated to the City of Round Rock. The General Plan designation for this phase is Residential.

For the purposes of this phase, 30 single-family detached estate lots are being proposed with a minimum 9,100 square feet in size and 70-feet in width. The PUD requires a minimum of 182 estate lots. With this plat, there will be a total of 75 estate lots for the subdivision. Lastly, there will be two (2) landscape/access/drainage lots and two (2) open space lots proposed with this phase. This proposal complies with the General Plan, Zoning and Subdivision Ordinances, and the approved PUD.

Compliance with the Concept Plan/Preliminary Plat: As shown, this final plat is in compliance with the preliminary plat.

Traffic, Access and Roads: A Traffic Impact Analysis (TIA) has been approved for the overall development. This phase will not require a TIA revision.

Water and Wastewater Service: Water and wastewater service will be provided by the City.

Drainage: There are no drainage concerns for this phase. Storm water will be captured by curb inlets and conveyed appropriately. Staff will review a more detailed drainage plan prior to permitting.

RECOMMENDED MOTION:

Staff recommends approval with the following conditions:

1. On sheet 4 of 4, include an updated signature block for the new property owner.
2. Identify the location of the neighborhood box unit for this phase or note on the plat in what phase it will be included.
3. Phase 3E acceptance is required prior to acceptance of Phase 5A. Phase 3E substantial completion is required prior to recordation of Phase 5A.
4. Any on-site and offsite separate instrument easements shall be recorded prior to recordation of this Phase 5A plat.
5. Provide an offsite water easement via separate instrument through to Phase 2B cul-de-sac right-of-way line above the new water line alignment. Vacate existing water line easement simultaneously prior to requesting acceptance.
6. Denote existing offsite water line easement on the existing misaligned portion with this callout: "to be vacated."
