FINAL PLAT FP1712-002**

HISTORY: The Planning and Zoning Commission approved the preliminary plat containing this property on June 22, 2011 as part of a larger plat covering more than 50 acres of land along RM 1431. The preliminary plat was then revised and approved administratively by staff on December 2, 2015. Currently, there is a pending application to revise the preliminary plat administratively to merge two lots into one for a proposed QuikTrip convenience store and gas station. A condition of approval has been included, which states that the final plat cannot be recorded with Williamson County until the revised preliminary plat is approved by staff.

DATE OF REVIEW: February 7, 2018

LOCATION: 3150 RM 1431 (NE Corner of Mayfield Ranch Boulevard and RM 1431)

STAFF REVIEW AND ANALYSIS:

General Plan and Zoning: The Future Land Use Map designates the site for commercial purposes. The property is zoned PUD 23 (Preserve at Stone Oak) and allows commercial land uses that are permitted in the C-2 (Local Commercial) District.

Compliance with the Preliminary Plat: The final plat currently does not comply with the approved preliminary plat for the property. The preliminary plat shows two lots for the property and the applicant is proposing one lot. However, there is a pending application to revise the preliminary plat, which will be reviewed and approved administratively. A condition of approval has been included, which states that the final plat cannot be recorded with Williamson County until the revised preliminary plat is approved by staff.

Traffic, Access and Roads: A Traffic Impact Analysis (TIA) has been approved for the overall development under PUD 23. This plat will not trigger a TIA revision.

Water and Wastewater Service: Water and wastewater will be provided by the City. The property will connect to an existing water line along the north property line. Wastewater will be connected via an easement from the neighboring property to the east.

Drainage: There are no drainage concerns for this final plat. Storm water will be captured by curb inlets and conveyed appropriately. Staff will review a more detailed drainage plan prior to permitting.

RECOMMENDED MOTION:

Staff recommends approval with the following conditions:

1. Prior to final plat recordation, the revised preliminary plat shall be reviewed and approved by staff.
2. Include the final date for the following plat note: "This plat conforms to the revised preliminary plat approved by the Planning & Development Services Director on _____."
3. The lot must be served with public wastewater physical infrastructure, or fiscal must be posted to do the same in accordance with Ch 36 subdivision ordinances, prior to recordation of the plat.
