**Four Points by Sheraton Subdivision  
FINAL PLAT      FP1804-005**

**DATE OF REVIEW:** May 16, 2018

**LOCATION:** Northwest corner of Rawhide Dr. and Hesters Crossing Rd

**STAFF REVIEW AND ANALYSIS:**

General Plan and Zoning:

The Future Land Use Map designates the site for commercial purposes. The property is zoned C-1 (General Commercial) and allows commercial land uses such as offices, retail sales, hotels and fuel stations by right. The C-1 development standards require that the exterior building materials be a minimum of 75% natural stone, simulated stone, brick, stone-face or split-face CMU. The remainder of the exterior may be stucco, fiber cement siding, architectural steel or metal.

Compliance with the Preliminary Plat: As shown, this final plat is in compliance with the preliminary plat.

Traffic, Access and Roads:

A Traffic Impact Analysis (TIA) is not required since right-of-way is being dedicated along Hesters Crossing Road to accommodate a deceleration lane, which will be constructed by the applicant. Additional right-of-way will not be required along Rawhide Drive.

Water and Wastewater Service:

Water and wastewater will be provided by the City. The property will connect to an existing water line to the east and south along Hesters Crossing Road and Rawhide Drive. Wastewater will be connected to an existing 8-inch public wastewater line located along the west property line. It is the applicant's intent to serve both proposed lots from the existing line by two separate connections.

Drainage:

This development will be participating in the City's Regional Storm Water Management Program. There are no drainage concerns for this concept plan. Storm water will be captured by curb inlets and conveyed appropriately.

**RECOMMENDED MOTION:**

Staff recommends approval with the following conditions:

1. Revise plat note number 3 to read as follows: "A portion of this tract is encroached by the ultimate 1% annual chance floodplain. No fences, structures, storage, or fill shall be placed within the limits of the ultimate 1% annual chance floodplain; unless approved by the City Engineer. Fill may only be permitted by the City Engineer after approval of the proper analysis."

**Subject Tract**  
**4.12 ac.**
