FINAL PLAT      FP1903-003**

**HISTORY:** The Planning and Zoning Commission approved a preliminary plat and final plat for the Hairy Man subdivision on November 7, 2018. A revised preliminary plat, with an additional number of lots, was approved by the Commission on February 6, 2019. A final plat for Phase 1 was approved on March 6, 2019.

**DATE OF REVIEW:** April 3, 2019

**LOCATION:** Northwest of Creek Bend Blvd. and south of Hairy Man Rd

**STAFF REVIEW AND ANALYSIS:**

Phase 2: This final plat is the second and final phase of the revised preliminary plat. It contains 11.39 acres of land of the 40.02-acre preliminary plat area. This final plat contains 23 development lots, of which 8 are estate lots, 13 are standard lots and 2 are small lots. With the remaining 79 lots, which are contained in the Phase 1 final plat, there will be a total of 14 estate lots, 45 standard lots and 43 small lots, which represent 14%, 44% and 42% of the total number of lots, respectively.

General Plan and Zoning: The General Plan designates the property as residential. It is zoned as SF-3 (Single Family – Mixed Lot), a district which provides for three sizes of single family lots: estate lots of at least 10,000 square feet, standard lots of at least 6,500 square feet and small lots of at least 5,000 square feet. The exterior finish of all houses must be at least 75% masonry and must include upgraded garage doors. The district is designed to provide a mixture of the three lot sizes: (1) estate lots, which are to be at least 40% of the total number of lots; (2) standard lots, which are to be at least 30% of the total number of lots; and (3) small lots, which are not to exceed 20% of the total number of lots. A subdivision may contain fewer estate lots or more small lots than allowed if it provides a higher connectivity index and several specified design features.

Due to karst features and creeks which constrain the use of the site, this subdivision does not provide the mixture of the three lot sizes prescribed by the SF-3 district. Instead, it contains less than 40% estate lots and more than 20% small lots. The subdivision must therefore meet the alternative standard in the SF-3 district, providing a connectivity index of 1.4 or greater and including the following design features:

1. A segment of the Brushy Creek Regional Trail;
2. A brick or natural stone subdivision wall, where required by the subdivision code;
3. Landscaping along arterial and collector roads;
4. Enhanced detention facilities and bridges/culverts.

With the inclusion of the Brushy Creek Regional Trails segment, the connectivity index reaches 1.4. The trail will be designed and constructed in accordance with an agreement between Milestone, the developer, and Williamson County.

Traffic, Access and Roads: The property has access from Creek Bend Blvd. and from Hairy Man Road. The plat dedicates additional right-of-way for Wyoming Springs Drive, a planned roadway that is on the City's Transportation Master Plan. No TIA (Traffic Impact Assessment) was required.

Water and Wastewater Service: The subdivision will receive water service from an existing 30" waterline that runs along the Wyoming Springs Drive right-of-way and from an existing 12" waterline that runs along Creek Bend Blvd. There are two existing manholes on Hairy Man Road which will provide access to the wastewater system.

Drainage: A flood study was prepared for the site and it was reviewed and approved by the City.

FINAL PLAT      FP1903-003**

**RECOMMENDED MOTION:**

Staff recommends approval with the following conditions:

1. Provide detail at enlarged scale for Boundary Segment C2 at the intersection of Overture Place and Soprano Way and for Boundary Segment C11 along Reprise Bend.
2. Revise Plat Note #8 to include: "A portion of this tract is encroached by the ultimate 1% annual chance floodplain."
