

The Northeast meeting was the fourth in a series of four quadrant meetings and took place on March 5, 2019 from 6:00-8:00PM in the Allen R. Baca Center Dining Room. The meeting was attended by 47 members of the community.

At the meeting, attendees were shown an introductory “What is a comprehensive plan?” presentation before starting a series of three exercises. The first exercise comprised of a series of open-ended questions, which attendees wrote their answers on stickers and placed them on boards. They then had the opportunity to place dots to agree with other answers. The second exercise was focused on getting the public involved in the policy-making process. Attendees were given a list of ten draft policies for the next decade that they could edit, comment on, and prioritize. They were also given the opportunity to create their own. The third exercise was a live polling exercise in which attendees could answer questions and immediately see how other people in the community answered.

The following is a summary of the exercise board and live polling responses from the Northwest quadrant. Policy exercise data is available seperately. All public input information will be available as an appendix to the comprehensive plan, Round Rock 2030.
