RESPONSE TO EMS TASK TRACKER QUESTIONS
ROUND ROCK FIRE DEPARTMENT
TASK ONE NEEDS ASSESSMENT

The Williamson County Mobile Outreach Team provides emergency behavioral health and crisis response services to the citizens of Williamson County. Since 2004 The Mobile Outreach Team (MOT) has served clients diagnosed with Substance Abuse Disorder and their families during times of crisis. It is our role to assess the situation and refer consumers to the most appropriate treatment available. It has always been a challenge to find treatment and recovery resources in our County, especially for uninsured persons. In 2015 and 2016 the team noted an increase in call volume related to heroin use and heroin overdoses and responded to a handful of families whose family members had died due to overdose. We found it difficult to provide accessible resources to this group of consumers and began exploring innovative or alternative methods for assisting this population. In August of 2016, representatives from MOT met Mark Kinzly of the Texas Overdose Naloxone Initiative (TONI) at the 1st annual Williamson County Overdose Awareness Day. Mr. Kinzly immediately became a remarkable resource for MOT, especially in terms of helping patients access treatment. Mr. Kinzly supplied Daniel Sledge (MOT Paramedic) with a few doses of IM naloxone in August 2016. Shortly thereafter, the MOT Director and Mr. Sledge met with the Williamson County EMS medical director, Dr. Jarvis, who offered approval and support for distribution of take-home naloxone to patients at risk of overdose. In September 2016, MOT made contact with an individual with Opioid Use Disorder in the process of release from incarceration and distributed the first dose of take-home naloxone. The team provided on-the-spot training to the patient and a friend.

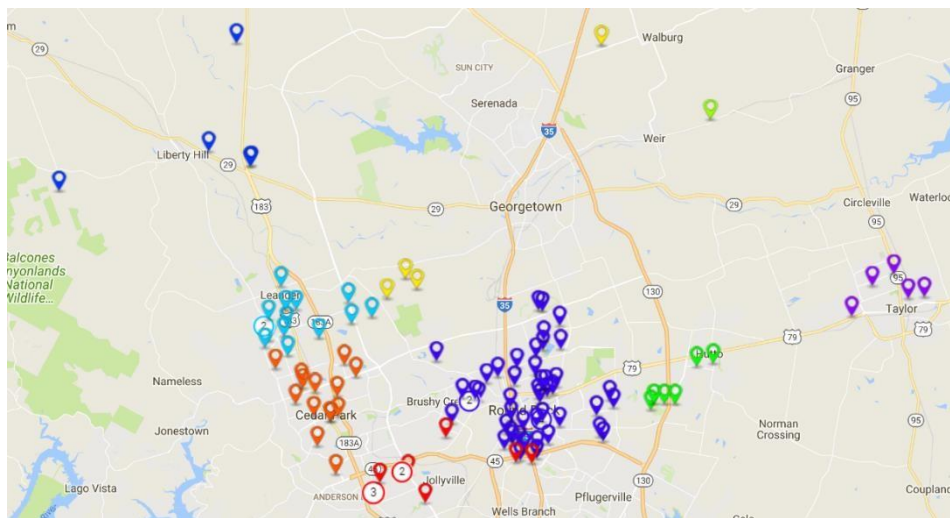

It was around this time that two medics, Julie Lahr and Anna Sessa, met with Mr. Sledge to discuss ideas on how to effectively identify patients at risk of opioid overdose and connect them to overdose education and naloxone distribution (OEND) via MOT. The three medics decided to try to run EMS reports identifying patients who were administered naloxone by EMS. EMS Medic Kirsti Elias set up the report generator for MOT to use to identify target patients.

Between emergency behavioral health calls, Mr. Sledge ran naloxone reports on ESO (the EMS electronic medical record) and attempted to make contact with patients identified as being at-risk for opioid overdose. If successful at making contact and the patient consented, Mr. Sledge provided OEND to patients and any loved ones present. Additionally, Mr. Sledge used motivational interviewing techniques to engage them in patient-led conversations about reducing harm and promoting any positive change. This included sometimes linking patients to services for Substance Use Disorder, behavioral health, and medical care, as well as linking patients and families to peer support and mutual aid groups.

Mark Kinzly donated to MOT additional doses of IM naloxone, as well as doses of Evzio by Kaleo, Amphastar prefilled syringes with Intranasal Mucosal Atomization Devices, and

fentanyl testing strips. During the period (September 2016 through March 2018), there were no other services in Williamson County providing OEND to patients at risk of opioid overdose and their loved ones. MOT noted during these encounters that there was little or no knowledge of naloxone – how to use it or how to obtain it. MOT served approximately 15 families between September 2016 and March 2018.

Representation: To determine who was most at risk for overdose, MOT once again turned to EMS records for data and discovered that 41% of the overdoses in the county over the past 11 months occurred in the Round Rock area. An overview of 111 patient records showed that male adults were experiencing overdoses at a higher rate than females. Please see Wilco EMS overdose map and note that this does not include data from Georgetown Fire Department and therefore excludes the Georgetown area.

TASKS TWO and THREE

INTERVENTION AND IMPLEMENTATION PLAN

Patients are identified by 911/EMS/FD First Responders during an opioid overdose call. If the patient is medically clear to forego transport to an emergency department, the responding EMS Medic Unit requests an MM Unit (Medic and Mental Health Specialist) to join the active call for service. The MM unit then arrives, assesses the patient, offers treatment if indicated, and provides a rescue kit and training if appropriate.

If the patient is transported to an Emergency Department by EMS, the clinical assessment, offer of treatment, and naloxone rescue kit will be offered to the patient at the Emergency Department or on a follow-up visit to the home by the team within 7 days after the initial overdose.

If the patient meets criteria for Opioid Use Disorder and has no other acute medical needs, the patient is offered Medication Assisted Treatment (MAT) and Peer Support Services. If the patient is not interested in treatment or recovery supports, the MM team requests permission to continue to followup with the patient in an attempt to engage the patient in recovery and support services over time.

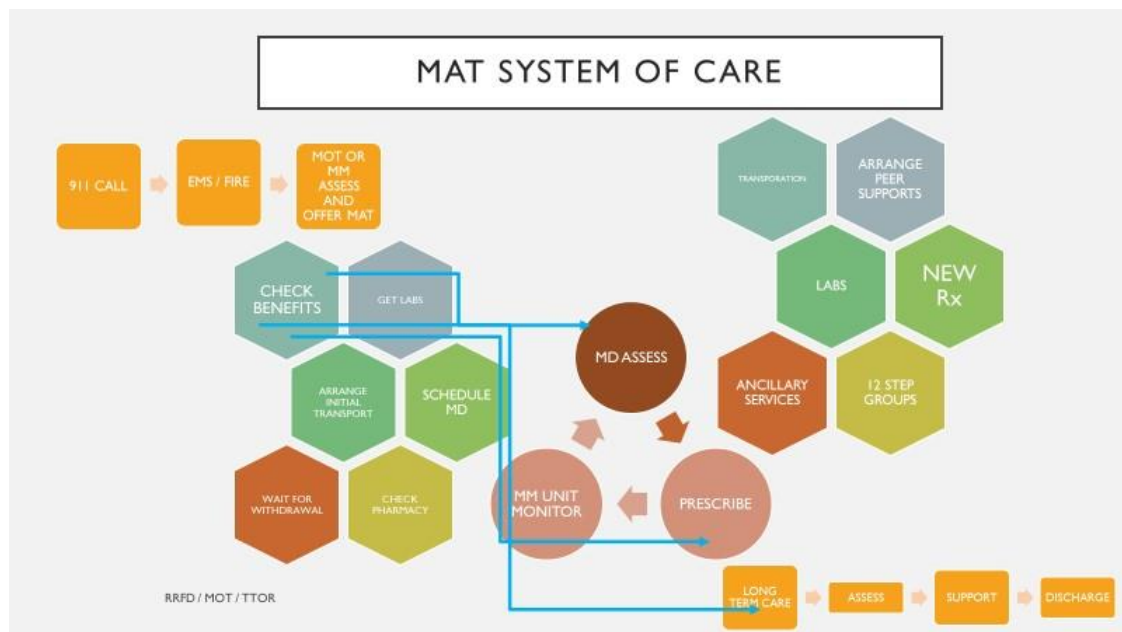

If the patient chooses to access MAT, the MM team contacts the Data Waived MAT physician at the Williamson County and Cities Health District (WCCHD) or a private provider with immediate intake availability. If the patient is enrolled with a private provider, the MM Team will transfer care and followup with the patient if requested by both the provider and the patient. If the patient is uninsured or unable to access care, the MM Team and the WCCHD physician review the patient's medical and substance use history, and the physician determines if lab work is indicated. If so, the MM unit transports the patient to an approved lab and then to WCCHD for additional medical assessment and discussion of MAT induction. The goal is to provide same-day induction to buprenorphine if at all possible.

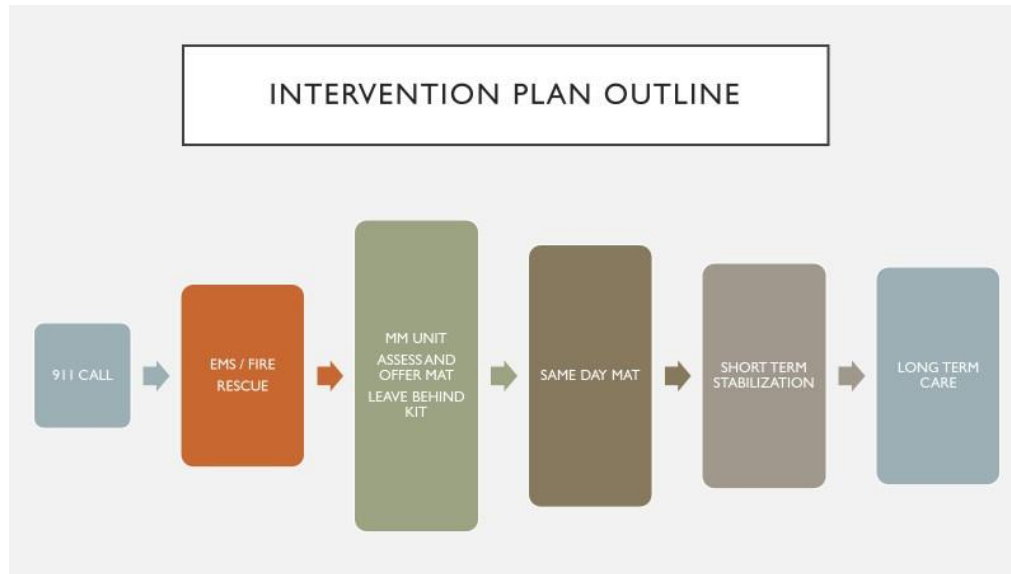

Once at WCCHD, the patient is met by the MAT Data Waived physician and support staff. During this visit a medical history is obtained and the patient is examined. If there are any acute medical needs discovered during this exam, the patient is referred out to the most appropriate medical provider. If not, MAT, symptoms and risks of withdrawal, the follow-up process, and the plan for ongoing care are fully explained to the patient and consent is obtained. The physician, the patient, and the MM Team then review the induction process and timing of the first MAT dose and the prescription is given to the patient. It is anticipated that most patients will be prescribed buprenorphine. The MM Team then transports the patient to the pharmacy and if needed, purchases the medication using Williamson County Emergency Services flex funding. The patient is then transported home with a clear plan of induction, knowledge of the Clinical Opiate Withdrawal Scale (COWS), and how to contact the team with questions or concerns. Any social service, behavioral health, or minor medical needs are also addressed or discussed. A Peer Support Specialist is introduced during this process and ideally will meet with the team and the patient during this stage of intervention. If not during the initial intervention or induction, then as soon as possible.

All instructions for MAT are reviewed by the patient and when medically appropriate (according to COWS), the first dose of medication is ingested. The MM team then follows-up with the patient face-to face every day until the patient is medically stable (as determined by the WCCHD physician in concert with the MM Paramedic). The team may employ telemedicine to communicate with the WCCHD physician and may also bring the patient to the clinic if needed. The Paramedic is responsible for checking the patient's vital signs, monitoring the patient for signs and symptoms of complicated withdrawal, and communicating daily with the WCCHD physician. The Peer Support Specialist provides support and access to community-based services throughout this process and is available by phone or text around the clock. The Mental Health Specialist provides crisis counseling, referrals for behavioral health care, and facilitates access to social services and benefits. Because this is a new treatment model for WCCHD physician, she may obtain consultation from a national MAT subject matter expert to review protocols and dosages on a case by case basis. Dr. Jarvis, the Medical Director for Williamson County Emergency Medical Services, will provide medical oversight for the Paramedics providing MAT follow-up services. Please see attached COWS Scale for reference.

Once the patient has stabilized, the team turns its efforts to facilitating admission to long-term care, preferably to an Office-Based Opioid Treatment (OBOT) center. The MM Team and Peer Support Specialist are tasked with shepherding the patient through the oftentimes complex and frustrating SUD treatment admission process and will provide emotional and logistical support throughout.

After the patient is enrolled in and successfully attending long-term care, the MM Team meets with the patient with less frequency and discharges the patient when all involved (the WCCHD physician, the patient, the MM Team, and the Peer Support Specialist) agree that transfer of care is complete. The patient understands that he or she may contact the team for reengagement if needed.

All patients and their loved-ones, family members, friends, and/or roommates are offered naloxone rescue kits which include gloves, CPR mask, instructions, resource materials, and fentanyl testing strips if available, and overdose response training whether they enroll in treatment services or not. The MM Team will run EMS naloxone and overdose reports each week in addition to responding to 911 overdose calls to ensure that patients are contacted and offered services and rescue medication. The MM Team will provide home/field visits to patients to provide naloxone rescue kits. At least once a month during the grant period, the team will participate in community events to provide outreach, overdose response training, and rescue kits to the community at large. The team will also collaborate with all area first responder agencies, local prevention and intervention organizations, recovery groups, schools, and hospitals to coordinate the distribution of overdose reversal medication. Round Rock Fire Department will also provide education to all First Responder Advanced Providers regarding Substance Use Disorder and opioid overdose response. The goal is to support harm reduction at all levels of intervention and engagement.

PATIENT OUTCOMES

The MM Team will track the number of

- patients offered overdose rescue kits and training
- patients assessed for Opioid Use Disorder
- patients offered Medication Assisted Treatment
- patients enrolled in Medication Assisted Treatment
- patients offered Peer Recovery Services
- patients enrolled in Peer Recovery Services
- patients enrolled in long term treatment
- rate of overdose post MM Team involvement for all patient groups (enrolled or assessed)

Section 5.03 HHS Right to Inspection

At any time upon reasonable notice to Contractor, or if HHS determines that Contractor has violated this DUA, HHS, directly or through its agent, will have the right to inspect the facilities, systems, books and records of Contractor to monitor compliance with this DUA. For purposes of this subsection, HHS's agent(s) include, without limitation, the HHS Office of the Inspector General, the Office of the Attorney General of Texas, the State Auditor's Office, outside consultants, legal counsel or other designee.

Section 5.04 Term; Termination of DUA; Survival

This DUA will be effective on the date on which Contractor executes the Base Contract, and will terminate upon termination of the Base Contract and as set forth herein. If the Base Contract is extended, this DUA is extended to run concurrent with the Base Contract.

(A) If HHS determines that Contractor has violated a material term of this DUA; HHS may in its sole discretion:

- (1) Exercise any of its rights including but not limited to reports, access and inspection under this DUA and/or the Base Contract; or
- (2) Require Contractor to submit to a corrective action plan, including a plan for monitoring and plan for reporting as HHS may determine necessary to maintain compliance with this DUA; or
- (3) Provide Contractor with a reasonable period to cure the violation as determined by HHS; or
- (4) Terminate the DUA and Base Contract immediately, and seek relief in a court of competent jurisdiction in Travis County, Texas.

Before exercising any of these options, HHS will provide written notice to Contractor describing the violation and the action it intends to take.

(B) If neither termination nor cure is feasible, HHS shall report the violation to the applicable regulatory authorities.

(C) The duties of Contractor or its Subcontractor under this DUA survive the expiration or termination of this DUA until all the Confidential Information is Destroyed or returned to HHS, as required by this DUA.

Section 5.05 Injunctive Relief

(A) Contractor acknowledges and agrees that HHS may suffer irreparable injury if Contractor or its Subcontractor fails to comply with any of the terms of this DUA with respect to the Confidential Information or a provision of HIPAA or other laws or regulations applicable to Confidential Information.

(B) Contractor further agrees that monetary damages may be inadequate to compensate HHS for Contractor's or its Subcontractor's failure to comply. Accordingly, Contractor agrees that HHS will, in addition to any other remedies available to it at law or in equity, be entitled to seek injunctive relief without posting a bond and without the necessity of demonstrating actual damages, to enforce the terms of this DUA.

Section 5.06 Indemnification

Contractor shall indemnify, defend and hold harmless HHS and its respective Executive Commissioner, employees, Subcontractors, agents (including other state agencies acting on behalf of HHS) or other members

The duty to indemnify, defend and hold harmless is independent of the duty to insure. Upon demand, Contractor shall reimburse HHS for any and all losses, liabilities, lost profits, fines, penalties, costs or expenses (including costs of required notices, investigation, and mitigation of a Breach, fines or penalties imposed on an Indemnified Party by a regulatory authority, and reasonable attorneys' fees) which may be imposed upon any Indemnified Party to the extent caused by and which results from the Contractor's failure to meet any of its obligations under this DUA. Contractor's obligation to defend, indemnify and hold harmless any Indemnified Party will survive the expiration or termination of this DUA.

Section 5.07 Insurance

(A) In addition to any insurance required in the Base Contract, at HHS's option, HHS may require Contractor to maintain, at its expense, the special and/or custom first- and third-party insurance coverages, including without limitation data breach, cyber liability, crime theft and notification expense coverages, with policy limits sufficient to cover any liability arising under this DUA, naming the State of Texas, acting through HHS, as an additional named insured and loss payee, with primary and non-contributory status.

(B) Contractor shall provide HHS with written proof that required insurance coverage is in effect, at the request of HHS.

Section 5.08 Entirety of the Contract

This DUA is incorporated by reference into the Base Contract and, together with the Base Contract, constitutes the entire agreement between the parties. No change, waiver, or discharge of obligations arising under those documents will be valid unless in writing and executed by the party against whom such change, waiver, or discharge is sought to be enforced.

Section 5.09 Automatic Amendment and Interpretation

Upon the effective date of any amendment or issuance of additional regulations to any law applicable to Confidential Information, this DUA will automatically be amended so that the obligations imposed on HHS and/or Contractor remain in compliance with such requirements. Any ambiguity in this DUA will be resolved in favor of a meaning that permits HHS and Contractor to comply with laws applicable to Confidential Information.
