Re: City of Round Rock
Brushy Creek Regional Wastewater System East Plant
Plant Control System Replacement
Recommendation of Award

Dear Mr. Friereich,

On Thursday, November 15, 2019, three bids from general contractors were received, opened and publicly read aloud at the City of Round Rock Utilities and Environmental Services Building Hall for the above-referenced project. The bids were as follows:

Contractor	Total Base Bid
Prime Controls, L.P.	\$1,925,538.00
Control Panels USA, Inc.	\$2,227,000.00
RLC Controls, Inc.	\$2,362,360.00

Prime Controls, L.P. was the apparent low bidder with a Total Base Bid of \$1,925,538.00. The Engineer's final opinion of probable construction cost for this project was \$1,900,000.00.

A phone call with Westfield Insurance company confirmed Prime Controls, L.P. is in good standing on current projects and the Bid Bond has an "A+" rating of performance. Prime Controls, L.P. has worked on multiple projects designed by Alan Plummer Associates, Inc., and has performed well on these previous projects. We have reviewed their bid and it appears to be in order.

Therefore, as described in the Cost Proposal Form, award is based upon Total Base Bid to Prime Controls, L.P. Contract award of Bid Item No. A in the amount of \$1,310,420.00 shall be awarded to Prime Controls, L.P., with Bid Item No. B in the amount of \$615,118.00 being included in the Bid Cost Proposal Form of the Brushy Creek Regional Wastewater System East Plant Expansion to 30 MGD as an assigned Subcontractor to the yet to be selected General Contractor, for a total award amount of \$1,925,538.00.

Please call me if you have any questions. We look forward to working with you during construction of this project.

Sincerely,

ALAN PLUMMER ASSOCIATES, INC.

Patrick Moseley, PE
