FINAL PLAT      FP2005-003**

**HISTORY:** This Final Plat is being processed simultaneously with the Preliminary Plat (PP2005-003) application at tonight's meeting.

**DATE OF REVIEW:** June 17, 2020

**LOCATION:** Generally located south and east of the intersection of E. Old Settlers Blvd. and N. A.W. Grimes Blvd.

**STAFF REVIEW AND ANALYSIS:**

**General Plan and Zoning:**

The Future Land Use Map designates the tract for Industrial purposes. The tract is zoned BP (Business Park) and allows colleges/universities, day cares, business or trade schools offices by right. As with public schools, open enrollment charter schools are permitted by right in any zoning district. The BP district development standards include building design and articulation requirements.

**Traffic, Access and Roads:**

Driveway access points will be finalized during the site development plan review stage. A Traffic Impact Analysis (TIA1910-001) was required for this project. There will be infrastructure improvements such as turn lanes and a deceleration lane along E. Old Settlers Boulevard. A new traffic signal will be installed at the northeastern portion of the development near Kiphen Road and E. Old Settlers Boulevard. The developer will pay their pro rata share of the cost. The developer is dedicating a 12 foot strip of land for right-of-way along the project frontage on E. Old Settlers Boulevard.

**Water and Wastewater Service:**

Water and wastewater service will be provided by the City of Round Rock. Both water and wastewater service will be obtained via existing 8-inch water and wastewater lines located along E. Old Settlers Boulevard.

**Drainage:**

It is anticipated that the proposed development will require two on-site detention ponds. One pond may be located in the southwest corner of the tract and the other may be located along the east property line. The exact locations and capacities will be determined at the site development review stage. The internal drainage infrastructure will be designed to convey site runoff to the proposed ponds.

**RECOMMENDED MOTION:**

Staff recommends approval with the following conditions:

1. Doc. No. 2017100929 is a water easement though titled as wastewater in recorded document. Revise accordingly.
2. For benchmark, vertical datum for elevation provided is listed as NAD83 but this is a horizontal datum. Utilize NAVD88 other vertical datum.
3. Remove plat note No. 6. A title report should be obtained for use in preparing this document to ensure all easements/entitlements are accurately depicted.
4. Remove duplicate "Exhibit A Property Description" header.
5. Include a solid line for the right-of-way lot similar to the property line.
6. Relocate the city tracking number to the bottom right hand side corner of the plat; use larger font and display prominently.
7. Remove plat note No. 7 since it is not necessary for right-of-way acquisition.
