Re: The City of Round Rock and Brushy Creek Municipal Utility District (Brushy Creek MUD) Raw Water Screen Replacement Project – Contractor Award Recommendation

Dear Mr. Perkins:

On June 9, 2020, the City of Round Rock opened bids for the above referenced project. Three competitive bids were submitted. All of bid packages contained all the required information. Based on the bid tabulation, Excel Construction Services, LLC (Excel), of Leander, Texas, is the low bidder.

Walker Partners, the City of Cedar Park, and the Brush Creek Regional Utility Authority (BCRUA) have recently completed projects with Excel. Based upon this working experience with Excel and the completeness of their bid package, Walker Partners recommends the City of Round Rock award this project to Excel.

This bid had several additive alternatives, one for the City of Round Rock and three for Brushy Creek MUD. Both entities will need to determine if they want to include any of the alternate bid items in the award and eventually in the contract with Excel. We will prepare conformed drawings and specifications as needed for the contract and contractor including the selected alternatives.

Sincerely,

Joseph W. Jenkins, P.E.  
Project Manager
