

SLIDING

Kids love to slide but it's not just fun! Sliding provides a variety of developmental benefits, including balance, coordination, cooperation and proprioception.

COGNITIVE

So many life skills are learned through play! Skills such as cognitive planning, mastering new concepts, problem solving and decision-making skills! When children climb, they develop confidence and take age appropriate risks that help build skills that will help them throughout their lives.

CLIMBING

Climbing brings adventure and challenge to the playground while providing necessary developmental benefits such as balance, agility, upper and lower body strength and decision-making skills! When children climb, they develop confidence and take age appropriate risks that help build skills that will help them throughout their lives.

IMAGINATIVE PLAY

Imagination is an important part of child development. Often in play, children learn important life skills that transcend the playground. Skills such as understanding, empathy and working toward a common goal are all practiced in imaginative play.

PLAY VARIETY

This design offers the perfect solution for a great playspace and ensures that the necessary and age-appropriate play components are included. With various slides, play panels, and climbers, kids will be able to enhance physical fitness and creativity while having fun playing.

SWINGING

The joy of swinging is a childhood staple and kids LOVE it! Best of all, it has so many developmental benefits, including inner ear development, spatial awareness and sensory integration.
