Mr. Fowler briefly reviewed the Final Plat application stating that the site contained (3) parcels. He explained that the proposed use for one of the lots was for multi-family and the (2) other parcels will be used for open space and drainage. He also stated drainage easements existed in the special purpose lots.

Mr. Fowler explained that the site was currently in Windermere CCN for water and wastewater, however, Round Rock water is nearby on Greenlawn. Staff recommended approval as conditioned.

The owner's representative, Mr. Joe Vining, with Vining and Associates, was available to answer questions and requested condition number 2: "Provide an onsite easement dedicated to "South West Water Utilities" (AKA Windermere) for wastewater to the property boundary adjacent to Pflugerville Pkwy. located on sheet 1" to be removed. Mr. Carr, with the Development Services Office, was available to answer questions.

Mr. Crossfield recommended for the applicant to provide the City of Round Rock with a blanket easement; once the applicant decided where the easement would be located, the blanket easement would be vacated with the new easement. City staff recommended that the applicant consider the blanket easement or table the item for a later date.

Following a discussion regarding the flood plain and condition number 2, the applicant requested the item be tabled. A motion was offered.

He also stated that the City and the MUD had an agreement, to authorize the City to review and approve the MUD's Land Use Plan and any changes to it.

The owner's representative, Mr. Alastair Jenkin, with HTH Capital, was available to answer questions.
