**E. PLATTING AND ZONING:**

**E1. Consider public testimony regarding, and approval concerning the request filed by J33S Consulting Engineering, LLC, on behalf of the property owner, HighTower Foundation Real Estate Investment, LLC, to Replat Lot 1 of the Amended Sam Bass 7 Subdivision and a 1.25 acre previously unplatted parcel, generally located northeast of the intersection of Ledbetter St. and Clark St. Case No. FP1903-009**

Mr. Enriquez reviewed the replat application stating that the purpose of the application was to create 18 development lots and 5 non-residential lots in two parcels. He briefly reviewed the annexation and zoning history of the tracts noting that the property was annexed in 1978 and zoned R-1 (Single Family Residential); in 1984 a new zoning ordinance reclassified the district from R-1 to R-6 (Single Family Residential); and in 1986 another new zoning ordinance reclassified the district to the current SF-2 (Single Family Standard Lot) with a minimum lot size of 6500 sq. ft.

He continued to explain that a TIA (Traffic Impact Analysis) would not be required because the proposed development did not meet the threshold for peak hour trips; access to the proposed subdivision will be via Ledbetter Street by means of a single new public roadway.

Mr. Enriquez noted that on May 20, 2019, City staff met with the Ledbetter Street residents and their attorney. He also stated that public notices were mailed out to abutting property owners and an on-site sign was posted on the property. Staff recommended approval of the proposed application as conditioned.

Chairman Pavliska opened the public hearing and asked anyone wishing to speak for or against this item to come forward. The following Round Rock residents spoke during the public hearing. 1) Lisa Corona, 1112 Ledbetter St.; 2) Willie Hendrix, 1315 Ledbetter St.; 3) Israel Avila, 1301 Ledbetter St.; 4) Patrick Haugen, 1309 Ledbetter St.; 5) Nathan Forystek, 1113 Ledbetter St.; and 6) Jane McAdams, 1111 Ledbetter St. Seeing no additional speakers Chairman Pavliska closed the public hearing.

In summary, speakers expressed concerns about the increase in traffic the proposed development would create on Ledbetter Street and the challenge the width of the Street will cause for two cars to drive by or large trucks such as fire engines to access. Also, concerns about the removal of monarch trees and the proposed development's compatibility with the surrounding neighborhood were stated.

Mr. Dunsworth noted that the site did not have an ultimate flood plain nor FEMA, therefore, a drainage study had not been required. He explained that drainage will be treated by on-site detention ponds.

Mr. Polasek explained that fire trucks will have access from Clark St. and noted that fire trucks will be able to make the necessary turns. He also noted that at this time, no road maintenance is scheduled for Ledbetter.

During the discussion, it was established that the purpose of the application was to create legal lot lines to be able to build single family homes (fee simple) and that the zoning and land use had been in place for several years. Furthermore, it was noted that state law states that if a submitted plat meets the minimum subdivision requirements, the City is obligated to approve the plat. It was also stated that, at this time, there was no proposal to remove any of the monarch trees nor a compatibility buffer would be required for parcels abutting commercial tracts. A motion was offered.

Case No. ZON1906-002**

Mr. von Rosenberg gave a brief overview of the application noting that the purpose of the application was to amend 4.32 acres in PUD 87. He briefly explained the existing PUD, its uses, and the proposed changes noting that the amendment would divide Parcel 'B' into two parcels. Parcel 'B-1' will consist of 1.06 acres for a special events venue and Parcel 'B-2' will consist of 3.26 acres for BP (Business Park) uses.

He stated that the BP (Business Park) district will be allowed and its development standards will apply to any new development; however, the maximum building height will be limited to two stories and signs will be regulated according to the code.

Lastly, Mr. von Rosenberg noted that public notices were mailed out to abutting property owners including a letter from the owner, an on-site sign was posted on the property, and a courtesy e-mail was sent to the neighborhood contact person. Staff recommended approval of the proposed Amendment No. 1 to PUD 87.
