Consider a resolution authorizing the Mayor to execute a Contract for Engineering Services with Halff Associates, Inc. for the Eagles Nest Street Project.

Consider a resolution authorizing the Mayor to execute a Contract with Halff, Associates, Inc. for professional services for preliminary schematic design and initial environmental due diligence for the Eagles Nest Street Project.

This project is part of the current Transportation Master Plan to develop a .9 mile - 4 lane facility connecting the industrial area of Eagles Nest on the east side of IH 35 with the industrial area of Chisholm Trail to the west of IH 35. The extension includes two bridge crossings; one over Chandler's Branch of Brushy Creek and one over Interstate Highway 35. Fill retaining walls are also planned for construction of the bridge approaches.

This segment of roadway is being proposed as a stand alone project but is part of a multi-segment multi-phase vision to construct Eagles Nest Street eventually to Creek Bend Blvd.

The cost for this initial design contract for the schematic and environmental work is $899,644.00.

***Cost: $899,644.00***
