Consider a resolution setting the date, time, and place for a public hearing to consider the adoption of roadway impact fees.

The purpose of this specific agenda item is to **set the date** for the second public hearing as February 28, 2019. The public hearing on February 28th will include information on the maximum rate that the Council can adopt by enabling legislation. On January 24, 2019, Council held a public hearing and adopted the land use assumptions and capital improvement plan, the first step of the process.

Background:

On January 11, 2018, the Round Rock City Council approved a contract with Kimley-Horn & Associates, Inc. to evaluate, develop and create an implementation plan for Roadway Impact Fees.

According to the 2017 Transportation Master Plan, over \$1 billion in new roadway capacity is needed to accommodate future growth in the City of Round Rock. Impact Fees are a mechanism for funding the public infrastructure necessitated by new development. Impact fees are meant to recover the incremental cost of the impact of each new unit of development. In the case of Roadway Impact Fees, the infrastructure need is the increased capacity on arterial and collector roadways that serve the overall transportation system.

The 2018 Roadway Impact Fee Study determined the maximum impact fee per unit of new development chargeable in accordance with the enabling legislation, Chapter 395 of the Texas Local Government Code. The actual fee amount ultimately assessed is at the discretion of the Round Rock City Council, so long as it does not exceed the maximum assessable fee allowed by law. The study looks at a period of 10 years to project new growth and corresponding capacity needs, as required by state law. The study and corresponding maximum fees must be restudied at least every five years. However, the study can be updated at any time to accommodate significant changes in any of the key variables of the impact fee equation.

The Capital Improvements Advisory Committee (CIAC) will review the maximum impact fee per unit of new development necessary to fund these improvements and provide the Committee's findings for

consideration by the City Council. This meeting is scheduled for February 6, 2019 and is required by Chapter 395 of the Texas Local Government Code.
