Consider a resolution authorizing the City Manager to issue a Purchase Order to Kinloch Equipment & Supply, Inc. for the purchase of a replacement debris tank.

With this purchase order General Services will establish a one-time purchase with Kinloch Equipment & Supply Inc. for a replacement debris tank on the vac truck needed to support City Operations. The vac truck is used to clean sewer lines and removing debris around pipes that are being repaired.

Our current Vactor is 2008 model and the body became compromised during a debris removal operation. A new Vactor will cost the City 485k, city staff believes if we replace this tank we will get another 5-7 years out of it.

Cost: \$53,317.60

Source of Funds: Utility Fund
