Consider a resolution determining the necessity for, and authorizing the use of the City's power of eminent domain to acquire an electric utility easement in and across a 0.125-acre tract of land owned by Richard Scroggins for the Brushy Creek Regional Utility Authority's Raw Water Delivery System.

The Brushy Creek Regional Utility Authority will require the construction of electrical utility improvements in order to provide the necessary power for the proposed pump station for the deep water intake. Negotiations have been occurring with property owners for the necessary easements for these improvements.

The City's appraised value for the proposed electric easement is \$4,183 for 0.125 acres. There was additional compensation of \$5,330 for fence replacement. The City's appraiser found no damages to the remainder to be caused by the acquisition.

The owners are represented by Brady & Hamilton, LLP. There have been no substantive demands or counteroffers in response to the initial or final offer letters from Cobb Fendley.

This resolution reserves the City's right to use eminent domain to acquire this tract should it become necessary.

EMINENT DOMAIN MOTION

LANGUAGE REQUIREMENTS

Mayor and Council:

The Texas Government Code §2206.053 has very specific requirements for the motion to authorize eminent domain proceedings. In order to make certain that we comply with these statutory requirements, I recommend that the motion to adopt the resolution be read aloud as follows:

"I move that the City Council approve this resolution which authorizes the use of the power of eminent domain to acquire an electric utility easement in and across the following parcel of land for construction of certain raw water line and electric utility improvements to and for the regional water treatment and distribution system of the Brushy Creek Regional Utility Authority, Inc.: a 0.125-acre tract of land from property owned by Richard Scroggins, as described in Exhibit A of the resolution."
