Consider a resolution authorizing the City Manager to issue a Purchase Order to Smith Pump Company, Inc. for the purchase of a Return Activated Sludge (RAS) Pump Replacement.

The Brushy Creek Regional Wastewater Treatment Plant needs to replace one of the Return Activated Sludge (RAS) pumps that has exceeded its useful life. RAS pumps are an integral part of the wastewater treatment process. These pumps provide a continuous, well-timed supply of oxygen that is essential to maintaining ideal aerobic conditions and to keep the activated sludge suspended.

Smith Pump Company is the sole source provider for these pumps, and this quote is for a one-time purchase of \$79,400.

Cost: \$79,400

Source of Funds: Regional Wastewater Operating Fund
