Consider a resolution authorizing the Mayor to execute a Contract for Engineering Services with Aguirre & Fields, LP for the Logan Street Connection Project.

Consider a Resolution authorizing the Mayor to execute a contract with Aguirre & Fields, LP that tasks the company to provide engineering services required for the preparation of plans, specifications and estimates (PS&E) and related supporting documents for the construction of a segment of Logan Street in Round Rock, TX on new location. The project limits will begin at Greenlawn Boulevard and end at A.W. Grimes Boulevard with transitions as necessary beyond those intersections to accommodate the traffic control plan or other miscellaneous work. These services include preparing roadway design, hydrologic and hydraulic design, structural design, illumination, environmental documentation, public involvement, geotechnical investigation and survey necessary to support the design process. These services also include providing support for the project bidding and a modest amount of construction services if necessary during the construction process.

This segment of Logan Drive is a missing link in the existing roadway system and will provide an important connection for a east/west roadway in Round Rock. This connection is identified in the City's 2017 Transportation Master Plan and is proposed to be constructed in accordance with that document. The proposed section will be a 40' urban roadway pavement section. This roadway section will increase mobility as well as the driving experience for many who will utilize this connection.

The contract cost is \$446,400.37 and the proposed contract time will expire on September 20, 2019.

**Cost: \$446,400.37**
