File #: 2019-0259, **Version:** 1

Consider a resolution authorizing the Mayor to execute a Contract with Patin Construction, LLC for the Westside Trails Improvement Project.

The Westside Trail Improvement Project includes replacing the Round Rock West Greenbelt and portions of the Behrens Ranch Greenbelt. The Round Rock West Greenbelt is an asphalt trail that is showing signs of age and deterioration. This project includes replacing the trail with concrete to better withstand the aging process. This portion of the project is funded by 2014 GO Bond funds. The Behrens Ranch Greenbelt is a decomposed granite trail that frequently experiences washouts during rain events. These portions of the trail will be replaced with concrete to lower continuing maintenance costs. This project is funded by Parkland Development funds.

Luck Design Team has recommended that the City of Round Rock accept and award the base bid, plus alternates 3 and 4 to Patin Construction. The base bid and alternates includes the replacement of the entirety of the Round Rock West Greenbelt trail along with including collapsible Bollards at road intersections. At Behrens Ranch Greenbelt, the westside of the trail north and south of Behrens Parkway is to be replaced.

Cost: \$541,334.65

Source of Funds: 2017 General Obligation Bonds & Parks Improvement Acquisition Fund
