Consider a resolution authorizing the Mayor to execute a Contract for Engineering Services with HDR Engineering, Inc. for the CR 112 from CR 117 to CR 110 Project.

This engineering agreement with HDR Engineering, Inc. is for the proposed roadway improvements for CR 112 from CR 117 to CR 110 and to widen this 1.18-mile section from a two-lane roadway to four-lane divided roadway and add pedestrian facilities. The proposed roadway improvements include widening the existing limits to a four-lane divided urban roadway. The design will accommodate a future six-lane divided roadway. Curb and gutter and a drainage pipe system are anticipated to accommodate drainage needs. A 10-foot shared use path is proposed on one side of the roadway and a 6-foot sidewalk on the other. ROW will be required and is anticipated to come predominately from the north side of the roadway.

This agreement will include the development of the schematic and 30% PS&E. The cost of this work is \$468,491.63.

**Cost: \$468,491.63**
