

Legislation Text

File #: 2020-0359, **Version:** 2

Consider an ordinance amending Chapter 22, Code of Ordinances (2018 Edition), regarding municipal court fines and fees. (Second Reading)

The Ordinance is required to implement legislative changes from 2019 to the names of certain fines, costs and fees. Additionally, the building security fee and fund, technology fee and fund and juvenile case manager fee and fund under state law and local ordinances are no longer necessary, so these provisions are no longer necessary. These fees are still collected, but are no longer local option.

These changes are administrative only and do not change current collections or practices in the Round Rock Municipal Court.
